Università di Torino

Prof. Ana Helena Dias **FRANCESCONI**

Research Assistant at the University of Sassari

“How to write a scientific paper”

Six hours of Interactive lectures + 2 h of “Take-home” activity (in pairs or groups)

29-30 March 2023

Day 1 – 29 March 2023 (Wednesday) – General aspects of Scientific Writing	
13.30-14.00	Welcome. Introducing ourselves. Describing the workshop. Importance of scientific writing. Overall structure and main sections of a scientific paper. Comparing the papers and journal guidelines (at lecturer’s and student’s choice) used during the workshop.
14.00-14.30	Main steps for planning and doing research and writing
14.30-15.30	Improving your writing: tips for making it clear, concise, and consistent (e.g., vocabulary, grammar, linking words and expressions, abbreviations, acronyms, units, and <i>p</i> -value)
15.30-17.30	“Take-home” activity (in the classroom without direct guidance of the lecturer): Pair work or Group work to do exercises on scientific writing. Turn in the assignment to lecturer by the end of this session.
Day 2 – 30 March 2023 (Thursday) – How to write your scientific paper	
9.00-10.00	Recap and Correction of exercises
10.00-10.40	Title, Running Title, Authors, Corresponding Author, Author contributions and Affiliations Abstract and Key words
10.40-11.30	Introduction Citations & References
11.30-11.40	Break
11.40-13.00	Materials and Methods Results (Text, Tables and Figures) Discussion and Conclusions Additional sections: e.g., Acknowledgements, Conflicts of Interest and Supplementary material
